No. 353 Storage Rak \$11.80

KIK STEP

**YOU KICK IT WHERE
YOU WANT IT**

Slight down pressure anywhere on the Kik-Step causes the gripping to "lock" to the floor as the easy rolling casters retract. Step off and it rolls free—any direction. The heavy gauge steel frame will take years of hard use. Ideal for use in offices, stores, libraries, homes, warehouses, factories—anywhere 14 inches of additional "reach" comes handy. Rubber treads on both steps and on all-around bumper add safety as well as silence.

White, Black, Woodtone Beige, Coppertan, Desert Sage, Mist Green, Silvertone Grey, Blue, Primrose Yellow. Shipped set up. Shpg. wt. 13 lbs. F.O.B. Kansas factory.

E - Z LETTERS

message-and-reply

With E-Z Letter you write or type a note and have it in an envelope ready for mailing much faster than the dictation-transcription process. You then have a copy for your file, a copy for the addressee and a copy for reply. Here is complete back-and-forth communication, handy for you and your reader — much faster than the formal letter routine and at much lower cost.

The undersigned certifies that the above is true and correct to the best of his or her knowledge.

This agreement made this _____ day of _____, 19____, by and between the _____ hereinafter called the Seller and _____ hereinafter called the Buyer.

WITNESSETH: The Seller has this day delivered to the Buyer, who by signing this agreement acknowledges delivery in good order, the following property:

QUANTITY	ARTICLE	PRICE

pursuant to the following terms and conditions:

1. The Buyer agrees to pay the Seller for the above listed property the purchase price of \$ _____ payable \$ _____ on the signing of this agreement. The balance of the purchase price shall be paid \$ _____ each and every (week -- month) hereafter at the Seller's place of business at _____ on the _____ day of each and every _____ month until the purchase price is fully paid. Buyer agrees to pay interest at the rate of _____ % per annum on all installments paid as herein agreed from their respective due dates until paid, and to pay all taxes accruing by reason of custody, purchase, sale or transfer of said property.

2. Buyer agrees that title to said property shall remain vested in Seller until and unless hereinafter set out shall have been fully paid and that said property will not be sold, removed from _____ County, State of _____ as pledged without written consent of Seller, and Buyer will be responsible for all loss or damage to said property for any cause whatsoever.

3. In the event of default of Buyer of any of the above terms, Seller may take possession of said property and Buyer agrees to pay all costs incident to such repossession, including a reasonable attorney's fee, and any payments made hereunder either in money or merchandise shall be retained by Seller as its liquidated damages and as compensation for use of said property by Buyer. Purchaser agrees that Seller shall not be liable either for civil or criminal action for such repossession, such rights being expressly waived herein.

4. It is further agreed that any indulgence granted by Seller in any payment or other requirements of this agreement shall not constitute a waiver of any of the provisions hereof, and that time is of the essence of the contract, and no verbal contract or agreement contrary to any terms and conditions of this written agreement has been made.

IN WITNESS WHEREOF Seller has caused this agreement to be executed by its proper officer thereunto duly authorized and Purchaser has hereto set hand and seal the day and date first above written.

Signed, sealed and delivered By _____ Seller (SEAL)

in the presence of: _____ Buyer (SEAL)

THE CARL CO., FORM 4000, COPYRIGHT 1955

CONDITIONAL SALES AGREEMENT Should be used whenever tangible merchandise is sold.

- Written agreement extends the life of obligation over longer period of time than if sold on open account.
- Title of merchandise remains with seller. When sold open account, the title of merchandise is vested with the purchaser.
- Customer signs document . . . excellent psychological point . . . they signed something.

CONDITIONAL SALES AGREEMENTS (RETAIN TITLE CONTRACT) Padded 50 and 100 to the pad.

250 for \$5.00 1,000 for \$15.25

FIREPROOF SAFES

All body members are electro-welded into one solid steel unit, adequately reinforced to withstand the impact of falling beams or a multi-story fall of the safe itself. All corners are of square modern design. The door is of a revolutionary new type which combines beauty, security and functional perfection. The door is locked by two double-acting vault type locking bars which are checked by a three tumbler combination lock. The front edges of the door are designed to prevent peeling. Door opens to full 270 degrees.

Both the body and the door are filled with a newly developed, structurally strong, monolithic insulation. All models bear the Underwriters' Laboratories Class "C" label as well as the one hour label of the Safe Manufacturers' National Association. Attractively finished in modern duo-tone grey. Height 24 1/8" outside, 16" inside. Width 17 3/4" outside, 13 1/8" inside. F.O.B. Ohio factory.

TIME SAVING — MONEY SAVING LETTER OPENER

Now, even the smallest offices can afford the convenience of a letter opening machine. If you've ever tried to open 40 to 50 letters with an old fashioned letter opener, you can understand the time and effort this machine can save in your office. Just insert the letter and press the bar, it's that simple.

OPENS 40 to 50 ENVELOPES PER MINUTE

No skill is needed to operate and there's no possible way to get hurt or cut. Open top, bottom or either side without damaging contents. Bulky envelopes too. Self-sharpening cutting blade. Steel bearings, Chrome trim and all metal construction. Easily operated with either hand. Rubber feet. Precision built. Guaranteed for 5 years. For envelopes up to 9 3/4" wide.

3L-44 Letter Opener \$29.95

STEEL BLUEPRINT CABINETS

A durable 5 drawer blueprint cabinet for filing Blueprint, Maps, Art Work, Engravings, Samples or Swatches. Heavy gauge steel unit with roomy drawers and smooth gliding ball bearings. HEAVY DUTY OPEN SHELVING

These shelves rest on secure, trouble-free clips which firmly grips the post and the shelf, creating a tight, solid support. No bolts to remove if you decide to change the position of the shelves—even when units are end to end or back to back.

The rigid posts are roll-formed with 11 rib-bends running the full length of the posts for greater strength. Shelves can be positioned at 1½" intervals.

The smooth shelves are made of rugged 16 gauge steel. Have holes for attaching dividers at 1" intervals. Curled flange construction. No rough edges can come in contact with hands or materials. Colors: olive green or gray. 6 shelves per unit. All units are 84 inches high and 36" wide. F.O.B., W. Va. factory.

RIGID-RIB CLIP SHELVING

11 bends give Rigid-Rib posts greater strength and rigidity.

All corners are rounded to provide Rigid-Rib posts with safety edges that can't snag or cut hands or materials.

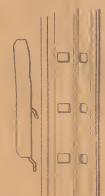

Rigid-Rib posts are clearly marked on every surface, inside and out, every 12 inches (8 holes) to make correct positioning and assembly of shelves positive and rapid.

POST CLIPS ARE EASY, TROUBLE FREE, SECURE

No tools are needed to install or remove intermediate shelves in Rigid-Rib assemblies—only four clips to each shelf. Each clip has two extrusions which fit firmly into the post holes. The clips grip the shelves firmly, creating a tight, solid support. The top and bottom shelves do not change position, and should be bolted to the posts.

With Rigid-Rib posts and clips the erection of any section is faster and easier, and the rearrangement of shelf positions can be accomplished simply and quickly.

COMMERCIAL AND INDUSTRIAL SERVICE COUNTERS

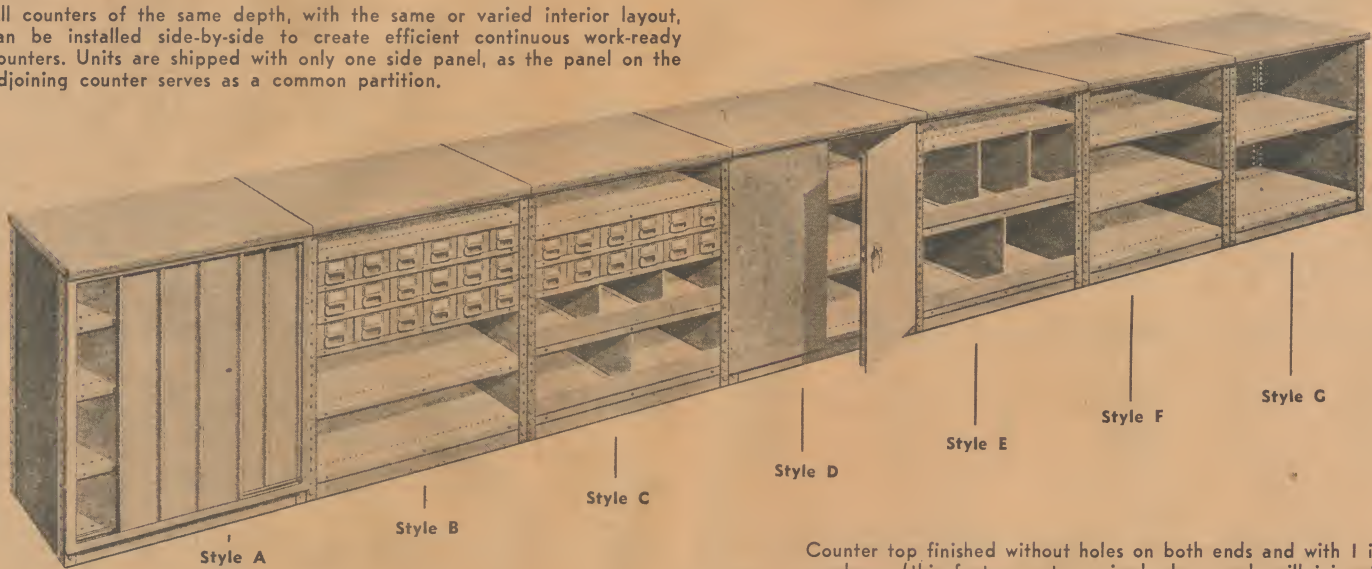

Modular Unit Design for Continuous Counter Installation or Free-Standing Individual Cabinets

All counters shown stand 39 inches high, 36 inches wide, and are finished in olive-green or gray baked enamel. Be sure to specify color desired when ordering. For counter top surface depth add two inches to the depths shown, which are floor sizes for the unit below the counter shelf. This adds to the finished appearance of the counters, and gives a more usable working area.

All counters of the same depth, with the same or varied interior layout, can be installed side-by-side to create efficient continuous work-ready counters. Units are shipped with only one side panel, as the panel on the adjoining counter serves as a common partition.

Counter tops are 16 ga. steel!

For perfect organization of service areas in offices, factories and institutions, or as sales counters in hardware stores, service stations and many other establishments, no counter installations can surpass these.

Counter top finished without holes on both ends and with 1 inch overhang (this feature not required where ends will join other cabinets or a wall).

No. 341 Two Finished Ends.....\$2.70

Counters are furnished with one partition panel per unit. One extra panel is required for each group to close one end. Specify END PANEL.....\$2.50

For lock on doors add \$2.00

BEST QUALITY AVAILABLE—SPECIAL LOW PRICE

Extra Heavy, All Steel. Steel Uprights Between Sections
For Bolts — Nuts — Screws — Pens and Pencils — Washers — Drills — Springs — Small Tools — Rivets — Fishing Tackle — Rubber Bands — Hobby Materials — Paper Clips — Art Supplies — Nails — Stamps — Medical Supplies — Radio and TV Parts — Spark Plugs — Coins — Salesman's Samples — and thousands of other items!

Don't compare this industrial-grade cabinet with light-gauge units. This heavy duty drawer cabinet is built for long lasting utility and appearance. If you are not completely satisfied return for full credit. The drawers offer unmatched flexibility, allowing you to make arrangements to suit your requirements. Can be used individually, on work benches, in shelving, under counters or stacked as high as needed.

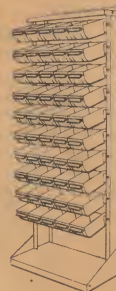

Channel-formed frames for extra strength. Steel uprights between sections give added support and rigidity, permit drawers to move freely. Each drawer equipped with two removable steel dividers, adjustable at one inch intervals to give any combination of space units required. Additional dividers may be added, if desired. Space for labels is provided on each divider, as well as the front of each drawer, so you can easily identify the contents. 18 gauge steel drawers have built-in back stop to guard against accidentally pulling the drawers completely out and spilling parts. Drawers measure 5½ inches wide and 2½ inches high. Attractively finished in gray or olive green baked enamel. 64 lbs. F.O.B. our factory near Steubenville, Ohio. 32½" long x 10½" high.

No. 2 C-70 STORAGE CABINET \$29.95

HEAVY DUTY VACUUM SWEEPER

Portable, Powerful, Economical Dust Collectors. These low-priced units are ideally suited to all dry pick-up cleaning duties. Can be used for keeping work areas dust free and healthy. To minimize dirt and debris, they can be attached directly to most electrical power tools. Each unit is equipped with a 6' length of 2 1/2" diam. hose. This large diameter overcomes the normal problem of hose clogging from pieces of wood or long chips. In addition to their basic use as vacuums, all units can also be used as blowers, to clean out, "hard to reach" corners. Both of these units come equipped with a two-stage ball bearing motor, 110V-60 cyc AC/DC, 6' 2 1/2" hose and floor nozzle.

4V115 Dustboy, 14 Gallon Drum

\$49.50

4V116 Dustvactor, 28-Gal. Drum

\$49.50

1 1/2" Vacuum Accessory Kit

This seven piece 1 1/2" accessory kit consists of the basic vacuum tools. Used in conjunction with any of the above Dust Collectors, they will provide even greater flexibility of end usage.

4A117 1 1/2" Accessory Kit \$19.50

4D118 3 Wheel Dolly for extra mobility \$ 5.95

HOLDER FOR Bound CATALOGS AND BOOKS

Servicemen, salesmen, purchasing agents, or anyone who must refer to a large quantity of paper data will find this holder a great time and labor saver. This holder will hold anything from telephone books or large catalogs to four-page pamphlets or folders; - without the necessity of having them punched for posts or rings. Holds data at the correct angle, for easy reading or writing, without the necessity of using your hands.

Holds a full thirty inches of bound books or pamphlets which have a page size of eleven inches, or less, on the bound side; and any width up to fourteen inches. Standard 8 1/2 x 11 inch pages are accommodated perfectly. A flexible rod inserted between the pages of any book or pamphlet holds the material firmly in place by snapping it into the holes provided at the top and bottom of the holder. To release merely pull up on the center of the rod and it will snap out. Holds 72 rods.

All steel construction. Mottled grey baked enamel finish. 30" Wide, 12 1/4" Deep, with a 5 1/2" tilt. F.O.B. Illinois factory.

A-91 BOUND BOOK HOLDER; complete \$14.75

A-92 Same as above but will hold only 15 inches of bound material (35 rods) \$ 9.25

SAVE VALUABLE TIME WITH LOOSE LEAF CATALOG HOLDERS

The following materials are kept for easy reference: Complete catalogs, individual catalog pages, service parts books, individual service parts bulletins, price lists, illustrations, drawings, photographs, engineering data, tariffs and rates, inventories of all types, wallpaper samples, telephone directories and all types of visible records.

There are often needless hours spent searching for parts information and specifications—aggravating, not only to yourself, but to customers. End this loss of time.

Used on desks or counters for holding any type of paper data—1 to 7,200 separate sheets—at the correct angle for easy reading and writing, without the necessity of using your hands except to turn pages. It keeps all of your paper data in one place neatly and where it is available at all times.

Finger tip reference to all catalogs

There are no nuts—no screws—nothing complicated. Everything slides into position quickly and easily. All steel construction. Durable life-time finish and money back guarantee.

New style slide-in wings prevent "hump" or roll of pages. Easily adjustable. 25 1/2" wide, 12 1/2" deep, with 5 1/2" tilt. Shown with ten filing sections installed. Total capacity, twenty filing sections. Eight filing sections included. WT. 15 lbs. FOB, ILL.

SMALL STORAGE CABINETS

Your Answer to Efficient Storage

STORE MORE ITEMS BETTER Less Space...Less Cost...Easier to Find

Small parts found instantly. Protection from dust and dirt. Low-cost storage for bolts, nuts, medical and laboratory supplies, electronic parts, thousands of other items. An attractive, space saving addition to shops, offices, laboratories, hospitals, showrooms. Makes housekeeping easy.

HEAVY DUTY...MODULAR...STEEL FRAMES

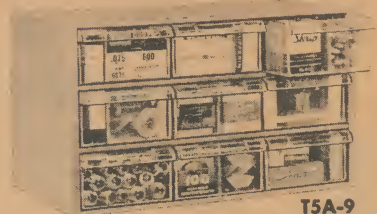

modular cabinets are welded into one strong, rigid unit. Stack accurately, securely regardless of height. No bolting or assembling. Use individually or stack in any desired combination — stand, stack, hang on wall, or fit into existing shelving . . . adapt to changing storage needs. Durable baked enamel finish won't chip, peel, or rub off.

M4B-16
16 Drawers

T3C-15
15 Drawers

T5A-9
9 Drawers

TWO TYPES OF DRAWERS SIX DRAWER SIZES

See-Thru Drawers—rapid visual identification. Made of super-strength, clear styrene plastic.

Extra-Heavy-Duty Drawers—hi-impact, non-transparent. Made of steel-strong polystyrene plastic in permanent granite-gray color.

Both types of drawers are molded one-piece construction — no seams, welds, or sharp corners . . . non-corrosive, non-rusting, non-conductive. Stop-tab safety catch on back of drawer prevents accidental spilling. Smooth sliding and silent operating. Label slots for easy indexing.

DRAWER DIVIDERS

Three kinds for each drawer size — slotted for lengthwise, crosswise, or crisscross arrangement. Dovetailed divider edges and drawer grooves lock tight — prevent bulging and spreading. Parts can't creep under dividers.

BUY WITH CONFIDENCE — ALL A-M CABINETS FULLY GUARANTEED — All models come ready to use, shipped in protective, individual floating-type cartons, fully assembled. Price includes drawer dividers and index labels. Prices F.O.B. shipping point.

ROTABINS

Increase capacity of your present storage area without using additional space. One Rotabin unit replaces 9 linear feet of conventional shelving. You can reduce number of aisles by as much as 65%.

When parts, tools and materials are stocked more efficiently, and in less space, worker's time can be reduced as much as 50%. Workers are away from their machines less. Simplifies inventory-taking. Easy access to all storage.

Heavy, welded construction to hold heavy loads under hard, abusive wear. A man's weight added to a fully loaded section will not bend or tip it. Each rotating section has 5 permanent welded dividers and turns easily on ball bearings. Extra adjustable dividers can be added. Olive green or gray.

Avoid losses!
Shreds your papers,
silently, automatically . . .
never to be read again!

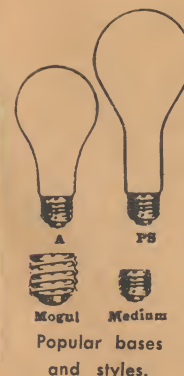

Your wastebaskets may be a source of important information easily misused by the "disgruntled", the "trouble-maker", or even an unethical competitor. Shred your papers, correspondence, memos, estimates, designs, stenographic notes—all forms of "essential" papers. So simple to use. Place the paper into the opening. Starts automatically. Stops by itself. No start or stop buttons! Paper is shredded into unreadable widths.

No bigger than the average wastebasket, elegantly designed to complement any office

GUARANTEED FOR 5 YEARS!

SAVE OVER \$2.00 ON EACH BULB

5 YEAR LIGHT BULBS

Cut your electric light bulb costs. Every bulb is fully guaranteed for 5 years by the manufacturer and by Carl Co.

Life expectancy of ordinary bulbs is 750 hours but even this is not guaranteed. One Carl bulb will last 14 times as long! In addition to the cost of the bulbs you also save the costs of frequent bulb changes.

Stronger tungsten filament has six filament supports, is designed to withstand vibration and electrical surges. Top quality parts and precision construction.

Special inner surface softens the light. May be used in factory, office or home. 110-125 volts.

**YOUR BEST INSURANCE
BETWEEN IRREPLACEABLE
RECORDS AND FIRE!**

Each day fire destroys almost 3 million dollars worth of property; it strikes somewhere in this country every 38 seconds. Unfortunately, every business is susceptible. It can happen to you—in your office, store or home. National averages reveal that four out of every ten businesses suffering record destruction will never re-open their doors again. If fire destroyed your deeds, titles, securities, business papers and inventories where would you be?

LARGER SAFES

BURGLAR AND FIRE RESISTIVE

Here are dramatic examples of the protection you must have with the contemporary styling your office deserves. These safes can help you eliminate the worry of fire and its destruction of your irreplaceable records. The degree of fire protection they provide is certified by the authoritative labels they carry. They mean that you will find vital records, contracts, and other key documents intact and undamaged after a fire, and countless case histories prove that without such record protection, few businesses can survive a fire! The risk of fire is ever-present . . . far too real to face without assured protection, the kind of protection you can have with these safes!

HEAT TEST

The safe is exposed to the most severe fire up to 1700° for one hour, and the temperature inside does not rise over 350°, leaving papers intact.

EXPLOSION TEST

The safe is subjected to a quick, hot fire in a testing furnace, pre-heated to 2000° F., for 30 minutes. It develops no explosive pressure within that would rupture the safe.

IMPACT TEST

The safe is heated to 1550° F., then dropped 30 feet on a bed of broken brick. After cooling it is reheated to 1550° for one-half hour, then allowed to cool normally. Papers in safe undergoing this test remained undamaged.

COMBINATION LOCK

Three tumbler, key changing bank type lock, permitting over 1,000,000 different combination changes, and mounted on drill resistive steel plate for added protection against burglary. Can be easily changed by user to any desired combination.

RELOCKING DEVICE

An approved relocking device is standard equipment, with separate relocking mechanism, providing additional positive protection against burglary.

INSULATION

Monolite, a light-weight insulation compound of proved low heat transmission, is poured between interior and exterior shells, leaving no voids. Reinforced with woven wire center for added strength against impact.

EXTERIOR & INTERIOR SHELL

Electrically welded cold rolled full finished furniture steel. Door and frame have deep interlocking tongue & groove construction on all four sides to baffle penetration of heat or flames.
